Today, TIME reveals the third annual list of the World's Greatest Places, which highlights 100 extraordinary travel destinations around the world.

To compile this list, TIME solicited nominations of places—including countries, regions, cities and towns—from its international network of correspondents and contributors, with an eye toward those offering new and exciting experiences.

Design District was featured as one of the exciting new openings in the UK, earning a spot on this year's list.

Opening in September, Design District is London's first permanent, purpose-built hub for the creative industries.

Designed by eight leading architects, the Design District's eclectic, head-turning collection of 16 unique buildings supports a dynamic ecosystem of 1,800 creatives, encompassing individual makers, ambitious start-ups, ground-breaking enterprises and industry leaders.

With affordable spaces, comprehensive facilities and flexible leases, everything is designed to help creative Londoners thrive.

Notes to editors
